Universal Human Values – II (UHV-II)

Module 1 · Session 9 — Student Activity Worksheet

Practice Session 3 — List of Desires

Session	9	**Lecture**	PS 3
Topic	Practice Session 3 — List of Desires (categorising desires by fulfilment, by need of Self/Body, and by source of motivation)		
Name	MD ZAID	**Reg. No.**	RA2511026010522
Branch / Sec.	CSE-AIML/AI1	**Date**	28th August 2026

Session Learning Outcomes

By the end of this session, the student should be able to:

- Categorise desires by what fulfils them: right understanding, relationship, physical facility.
- Distinguish needs of the Self (I) from needs of the Body.
- Categorise desires by source of motivation: preconditioning, sensation, natural acceptance.

How to Engage with this Session (The Process)

- Whatever is said is a proposal — do not assume it to be true or false.
- Verify it on your own right, on the basis of your natural acceptance.
- It is a dialogue: first with the teacher, then within your own self — between what you are and what you really want to be.

Part A — Key Ideas (Recap)

- List your desires, thoughts and expectations, then categorise them three ways.
- By fulfilment: right understanding (clarity), relationship (right feeling), physical facility.
- The base of right understanding is required for any desire; right feeling wherever others are involved; physical facility for needs of the body.
- Most desires are needs of the Self (I), yet most effort goes to physical facility (which fulfils only needs of the Body).
- By source: preconditioning and sensation are enslavement (decided by outside); natural acceptance is self-organised.

Part B — In-Class Activity

Activity 1 — Categorise by Fulfilment

List a few desires and tick what is needed to fulfil each.

Desire / want	Right understanding	Relationship (right feeling)	Physical facility
Money	Yes	No	Yes
Good friends	Yes	Yes	No
Peace of mind	Yes	Yes	No
Healthy Body	Yes	No	Yes

Activity 2 — Need of the Self (I) or the Body?

For each, mark the primary need and give the reason.

Desire	Need of Self (I) / Need of Body	Why
Food	Need of Body	Provides physical nourishment and energy.
House	Need of Body	Offers protection against weather elements.
Respect	Need of Self	Relates to continuous emotional validation and trust.
Happiness	Need of Self	Expresses internal balance and clarity in consciousness

Roughly, what % of your desires are needs of the Self, and what % of your effort goes to physical facility?

Activity 3 — Source of Motivation

Categorise a few desires by source, and estimate the percentages.

Desire	Preconditioning / Sensation / Natural Acceptance	Enslaved or Self-organised?
Buying a luxury car for status	Preconditioning	Enslaved
Eating food solely for taste	Sensation	Enslaved
Wanting to care for family	Natural Acceptance	Self-organised

Activity 4 — Time & Effort Audit

Roughly how many hours a day do you spend on each? (right understanding, relationship, physical facility/body)

Right Understanding: ~1–2 hours daily.

Relationships: ~2–3 hours daily.

Physical Facility / Body: ~10–12 hours daily.

Part C — Long-Answer Questions

Q1. A list of desires, thoughts and expectations can be categorised in three different ways. Describe these three categorisations.

1. **By Fulfilment Requirement:**
    - Desires fulfilled by **Right Understanding** (clarity of existence).
    - Desires fulfilled by **Right Feeling in Relationships** (trust, respect).
    - Desires fulfilled by **Physical Facilities** (food, shelter).
2. **By Entity Needing It (Self vs. Body):**
    - **Needs of the Self (I):** Quantitative feelings like happiness, respect, and peace.
    - **Needs of the Body:** Physical items like food, clothing, and shelter.
3. **By Source of Motivation:**
    - **Pre-conditioning:** Derived from external assumptions or social trends.
    - **Sensation:** Driven by sensory input.
    - **Natural Acceptance:** Originating from self-verified internal harmony.

Q2. Distinguish between the need of the Self (I) and the need of the Body, with examples, and state the conclusion this exercise leads to.

Needs of the Self (I): Qualitative, continuous internal states such as happiness, trust, and respect.

Needs of the Body: Quantitative, limited physical items required for nourishment, protection, and right utilization (e.g., food, clothing).

Conclusion: Physical facility satisfies body needs but cannot fulfil the qualitative needs of the Self. True fulfilment requires prioritizing right understanding and relationships alongside physical facilities.

Q3. Differentiate preconditioning, sensation and natural acceptance as sources of motivation, and explain which leads to self-organisation and which to enslavement.

Preconditioning: Desires motivated by external influences, fashion, or societal pressure.

Sensation: Desires motivated by sensory pleasures (taste, sight, sound).

Natural Acceptance: Desires aligned with intrinsic human values and universal order.

Outcome:

- **Preconditioning and Sensation** lead to **enslavement** because decisions depend on external factors and fluctuating inputs.
- **Natural Acceptance** leads to **self-organisation** because decisions originate from stable, internal verification.
